DAIRY PRODUCTS CUTTING BLADES

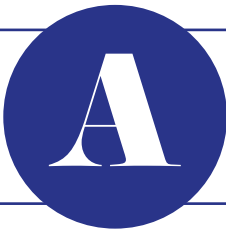

01

For decades, Mongin have been following the evolution of high standards in the agro-food industry, with particular focus on the dairy products sector. The expertise gained over the years is proof of our manufacturing "Savoir faire". Our customer loyalty demonstrates our quality and our large, modern production capability is evidence of our performance and adaptability.

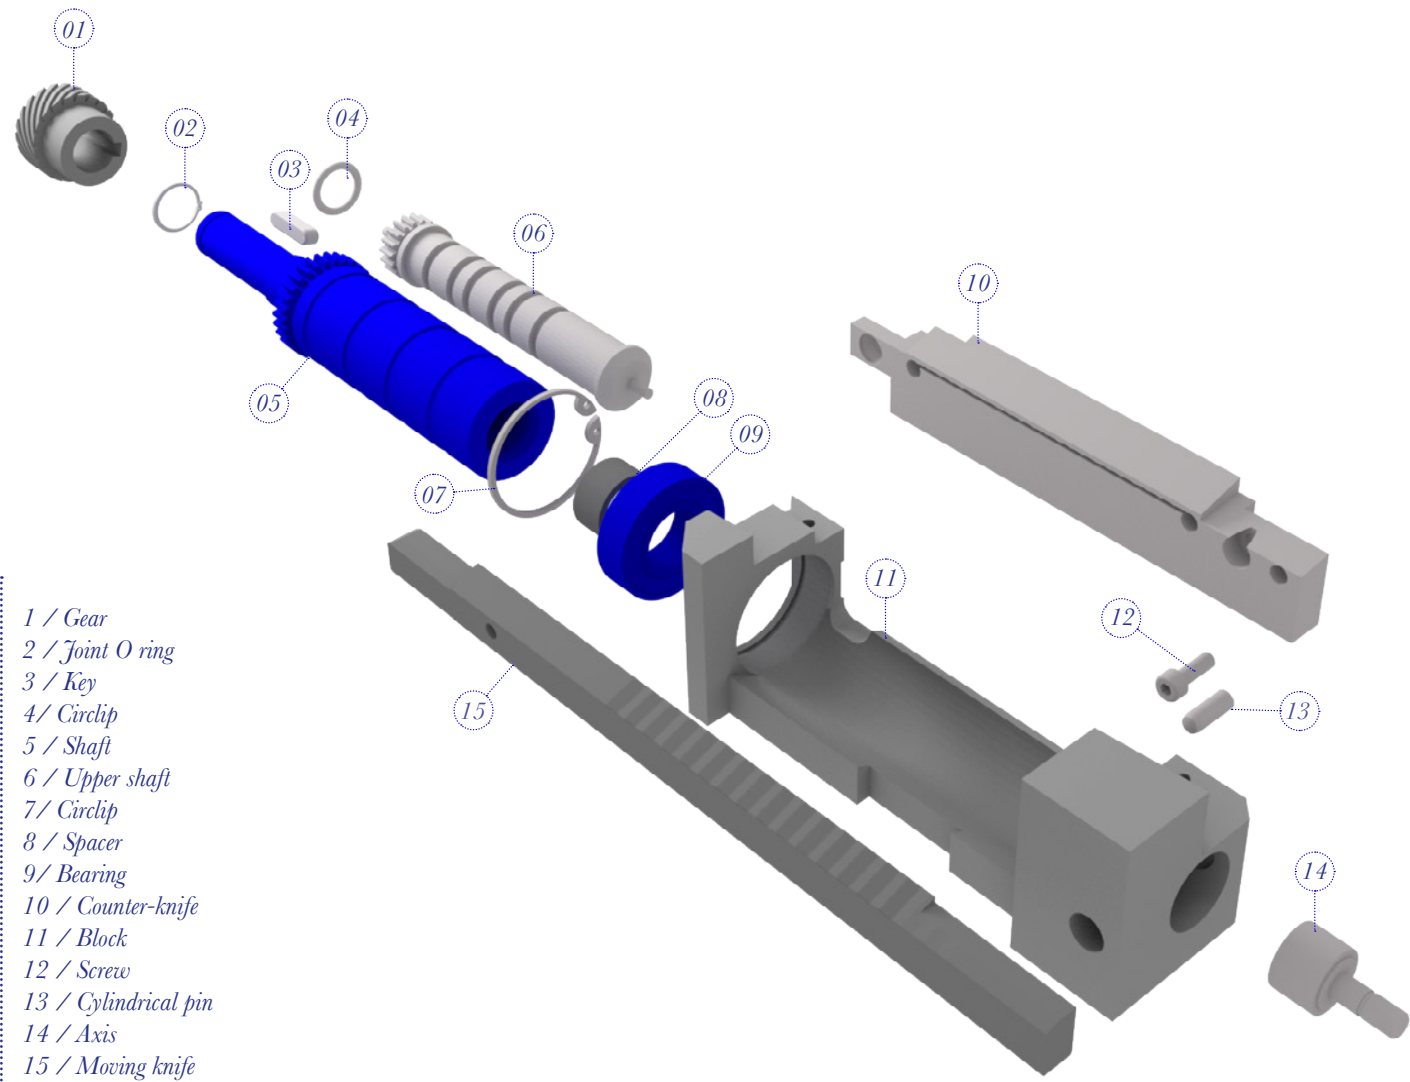

YOGURT POT'S DESIGN CUTTING BLADE

TRANSVERSAL CUT / DESIGN CUTTING TOOL

TYPE OF MACHINE : ERCA, ARCIL, ...

Depending on the quality of the cut required for your finished product, we offer a magnetic knife combined with a counter-knife with either a smooth or a wave-shaped cutting edge. The latter allows for a progressive cutting action. The knives are manufactured in a full hardened steel with or without coating

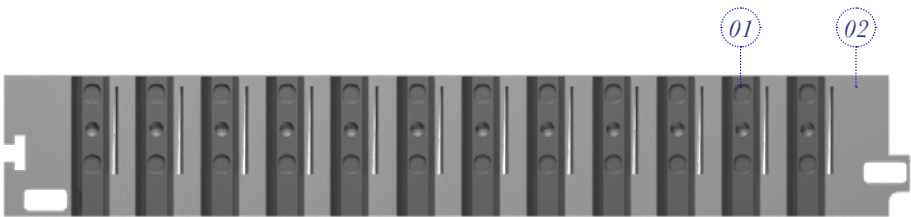

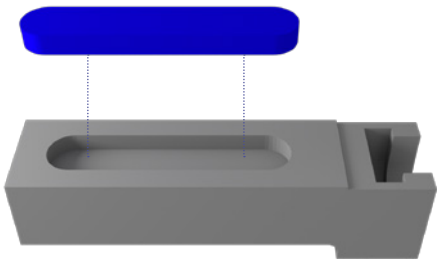

TEAR-OFF STRIP CUTTING

Different knives can be manufactured to fit your products and your machine.

TRANSVERSAL CUT / CUTTING PLATE AND KNIFE

TYPE OF MACHINE : ERCA, ARCIL, ...

The cutting plate is movable while knives are fixed. Different coatings are available. Plate dimensions can be adjusted to the number of slot needed.

- 1 / Fixed knife
- 2 / Moving plate

LONGITUDINAL CUT / SLITTING KNIFE
MACHINE TYPE ERCA, ARCIL,...

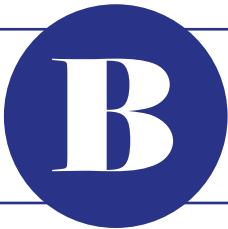

Standard models are available (see. table). However we can manufacture on demand according to your technical specifications.
