

# NEW GENERATION MAC COMBI

- ✓ Produce corrugated boxes from **2mm to 8mm thick**
- ✓ Make a **great variety of boxes** (FEFCO and many other models)
- ✓ Produce **several cases at once**
- ✓ Feeder with **automatic rectification**
- ✓ **Optimize your inventory level** by using both adjusted boards and boards from stock without prior cutting
- ✓ **Produce without specific tooling**
- ✓ **Work in both flute directions**, without any board length constraint
- ✓ Benefit from the power of our **control software**
- ✓ Configure a **modular solution** to suit your growth
- ✓ **Minimize your environmental impact** by producing fitted cases

Our new generation of MAC COMBI allows you to do it **all in a single pass**

# YOU NEEDED TO PRODUCE CUSTOMIZED BOXES IN CORRUGATED CARDBOARD

The great flexibility of our new **MAC COMBI** enables it to produce, without special tools and in a single run, a large variety of boxes.
