<b>CHARACTERISTICS</b>	Yellow color, high viscosity, flexible	White color, low viscosity, biobased	Yellow color, medium viscosity, long open time
<b>VISCOSITY AT 160°C.</b>	6.000 mPa.s	1.500 mPa.s	3.500 mPa.s
<b>ASPECT</b>	Granules	Granules	Granules

## DID YOU KNOW?

### OEKO TEX® CERTIFICATION

Our ICAMELT 3933, 3933/W, 3921/H, MM 75 and MM 75/E adhesives are ECO PASSPORT by OEKO TEX® certified, an independent certification system for chemicals, dyes and auxiliaries used in the textile and leather industry. One of the great advantages of OEKO TEX® certifications is that of certifying the absence of harmful substances far beyond what the law claims. The choice of ICAT Adhesives to invest in this control and certification system is proof of its attention in the search for quality products free of harmful substances that always know how to guarantee customers high standards and, above all, high safety criteria.
